**Q2**

What did you especially like about the course?

I enjoyed the structure of the course. The online video lectures led to great discussions in class. It allowed us time to develop questions or concerns on course material and discuss as a whole and one-on-one.

The setup of the assignments was another thing I liked about this course. Each assignment led into the next one.

Lastly, I appreciated the support we were given from Dr. Baule. He went above and beyond what a typical professor would do. It made this class enjoyable and manageable.

---

**Q3**

How do you feel this course could be improved?

I don't believe there is much that could be done to improve the class. Each aspect of class was beneficial.

## Q2

What did you especially like about the course?

The practical progression of the assignments. It made the process less scary!

---

**Q3**

I think more content surrounding the IRB process should be a staple, especially when time constraints may be at hand.

---

Would you take another course from this instructor, based upon the instructor's abilities as an instructor? (Please ignore the fact you might be graduating or not need another course in the program.)

**Yes, because,**

---

**Q5**

Any other comments you wish to provide

Although there were plenty of scary moments in this course, the design of the course really helped to keep that to a minimum and walked me through the process of starting my thesis, quite nicely. I was pleasantly surprised!

**Q2**

What did you especially like about the course?
