Q1

What are three things I can do this semester to help build your confidence and ensure your success?

I would like to simply improve my skills in researching. Looking for the right material and perfecting my key word search.

I think educating myself on how to prepare for writing a scholarly research paper would give me confidence in looking at research.

Lastly, trying to be more critical of my research and other research I am reading. I think this will help me form my own opinions and confidently defend them.

Q2

Do you have any specific questions that didn't get answered tonight?

No specific questions at the moment!

With that in mind, allow opportunities to work in blended leadership groups and also like-leadership groups for example those in educational leadership, principal/admin, general leadership, sports, medical, etc.
 2. Be clear on goals, information, and tasks both in class and outside of class. Give specific feedback to help promote reflection and growth.
 3. Give real-world examples and scenarios.

Q1

What are three things I can do this semester to help build your confidence and ensure your success?

Tonight's class was a great start. Really enjoy hearing other people's thoughts on topics, I always learn something new. I love the breakout rooms. You get to know your classmates better and the discussion is lively. With the whole group you're very self conscious about speaking too much.

Q2

Do you have any specific questions that didn't get answered tonight?

No. It's been since 2014 since I was taking classes at WSU so I might need some refreshers on how to do the online components.

Q1

What are three things I can do this semester to help build your confidence and ensure your success?

I appreciate the structure and clarity in which your classes are conducted. 4:55, Yes! I understand!

I like samples of finished product(s). This assists me in knowing the outcomes desired. For example, in the thesis class, a sample of another student's thesis is of great value. I am not sure this is a realistic option in a more personalized learning class such as this.

Clarity and detail in expectations.

Thank you. This was a great first class.

Q2

Do you have any specific questions that didn't get answered tonight?

No. Thank you for contact information as questions come up; how to contact and the hours.

Give me specific feedback to help me grow in my professional learning.
Clarify questions with examples.
Give examples that are specific to elementary.

Q2

Do you have any specific questions that didn't get answered tonight?

As an elementary teacher, I am really taking this course to become a better leader for my team and to gain more knowledge in these specific areas. I am hoping that some of the concepts can be transparent in that they can be applied to elementary as well as middle and high school or administrative.

Q1

What are three things I can do this semester to help build your confidence and ensure your success?

I love the idea of both 651 and 656 on Tuesday nights. I hope that works out. I like feedback - if you think I am off track, please let me know. I really enjoy getting to know people in the class, so having reasons for us to talk to each other makes me happy. That might be because I've been working at home mostly this year, but I miss people!

Q2

Do you have any specific questions that didn't get answered tonight?

Not yet. I think the D2L class setup makes a lot of sense, but I might have more questions once I get more into the coursework. Thank you for all your help!
